

Zohaib Naseer, React Native Developer

Lahore, Pakistan, (+92) 3425861066, zohaibnaseer2244@gmail.com,
<https://www.linkedin.com/in/zohaibnaseer786/>

SUMMARY

Dynamic React Native Developer with over 7 years of experience in creating modular and reusable components across diverse platforms. Proficient in optimizing UI performance and maintaining CI/CD pipelines, complemented by strong mentoring capabilities. Successfully enhanced customer engagement through innovative features and efficient state management with Redux and MobX. Eager to leverage expertise in building high-performance mobile applications to drive success in future endeavors.

WORK EXPERIENCE

05/2024 – Present

Senior Software Engineer, My Alfred

Dubai, United Arab Emirates

- Designed modular and reusable React Native components to ensure fluid operation across an array of applications and platforms.
- Managed upgrades and maintained a robust CI/CD pipeline, focusing on efficiency, reliability, and scalability.
- Authored comprehensive unit tests and automated testing suites, solidifying code quality and dependability.
- Implemented effective application state management using tools such as Redux, Context API, MobX, or Zustand.
- Optimised component performance for a superior user experience, particularly on resource-constrained devices.
- Tailored UI/UX designs to meet diverse user needs, ensuring high performance even on low-end devices.
- Developed and integrated innovative features for our React Native product suite, adapting to market trends and user demands.
- Resolved technical challenges while addressing user-centric matters through a results-driven approach to cultivate impactful solutions.
- Collaborated with backend developers, UI/UX designers, and product managers to enhance application functionality, design consistency, and user engagement.
- Mentored junior developers, promoting a culture of learning and continuous enhancement.
- Championed agile practices and utilised scrum methodologies to enhance project execution and improve team collaboration.
- Integrated blockchain and cryptocurrency-specific APIs to support secure transactions and real-time updates within applications.
- Monitored the latest trends in cryptocurrency and mobile app development, ensuring relevant innovations are incorporated into our platforms.

06/2022 – 06/2024

Senior Software Engineer, Txxel

Lahore, Pakistan

- Engineered modular React Native components to optimise functionality across diverse applications and platforms.
- Oversaw upgrades and maintenance of our CI/CD pipeline, ensuring both efficiency and reliability.
- Developed and maintained comprehensive unit tests to guarantee code integrity.
- Managed state across applications utilizing Redux, Context, MobX, or Zustand to ensure a cohesive user experience.
- Refined component performance to enhance user interaction and satisfaction.
- Adapted UI designs for seamless performance across less powerful devices, aligning with user expectations.
- Innovated and implemented new features within our React Native product range, responding to market demands.
- Addressed technical challenges and user-focused issues with a solutions-oriented mindset.
- Collaborated closely with backend developers, designers, and product leaders to elevate application functionality and design ethos.
- Guided and coached emerging developers within the team, fostering a collaborative learning environment.
- Leveraged scrum and agile methodologies to streamline project execution and enhance team cohesion.

08/2019 – 06/2022

React Native Mobile Engineer, DevBeans

Lahore, Pakistan

- Constructed reusable React Native components to facilitate interaction with multiple entities and applications across our platforms.
- Enhanced and maintained our CI/CD pipeline to ensure optimal performance and reliability.
- Executed unit testing and documentation to uphold code quality.
- Implemented global state management using Redux, Context, and MobX to streamline application performance.
- Optimised both regular and pure components and UI to ensure effective performance on lower-end devices.
- Introduced new features to our React Native products, focused on improving user engagement.
- Resolved technical and behavioural challenges with prioritisation based on customer impact.
- Coordinated with backend developers, designers, and product owners to continually elevate the customer experience within our applications.
- Mentored junior developers to strengthen team capabilities.
- Applied scrum and agile methodologies to foster project efficacy.

EDUCATION

01/2016 – 01/2020

Comsats University
Bachelor of Software Engineering, Software Engineering

Islamabad, Pakistan

SKILLS

React Native	Expo
React JS	Next js
Nest js	Node.js
JavaScript	TypeScript
SQL	MongoDB
Firebase	Git
Agile (Scrum)	GraphQL
API integration	Mentoring
Collaboration	Problem solving
Communication	Adaptability
CLI Building Node	Turbo Modules
Fabric	Offline DB Syncing
Native Bridge	Local DB
Water Melon DB	SQL Lite DB
Mongo DB	Firebase
Firebase Firestore	Push Notifications
Squelize	Socket.io
Rest API	GraphQL API
Java	Android
Kotlin	GitHub
GitHub Actions	CICD
Fastlane	CodePush
Unit Testing	React Native Testing
Mock Testing	Sonarqube
Github Pipeline	Automation
Maestro	Integration Testing
UI Testing	End-to-End Tests
Detox	Google Analytic
Firebase Analytic	Braze
Kiosk Android	Jira
Docker	Postman
Agile (Scrum)	GRPC
App Write	Crpytocurrencies
